

BUNKER / TIME-DELAY CASH PROTECTION

Protect your cash with time-delay security.

Mechanical time-delay protection with multi-delay or custom single-delay options, keeping excess cash out of immediate reach.

WHY BUNKER

01

Reduce cash exposure

Move excess notes from the till into the locked Bunker without opening it.

02

Protect staff under pressure

Even with the key, staff cannot access cash before the selected delay ends.

03

Make robbery less attractive

A fixed wait removes the immediate cash access a fast robbery depends on.

HOW IT WORKS

Delay (min)

Multi: 2.5/8.5/14.5
Single: -3/custom

Deposit

Through the top slot

Reinsert key

At the selected notch

Wait & open

After the nominal delay

Three sizes. One simple routine.

1-YEAR WARRANTY

S - Standard

235 × 125 × 270 mm*

5.5 kg
